

Immigrant Dairy Worker Health and Safety Training *Seguridad en las lecherías*

Photo: earldotter.com

Seguridad en las lecherías is a health and safety intervention for immigrant workers in dairy. The OSHA-approved five-module, bilingual training curriculum includes background sections on each topic and a step by step facilitators guide with visuals either in the form of a power point slide presentation or a flip chart.

For additional information about accessing the curriculum contact Juliana Simmons at jsimmons@migrantclinician.org.
