

2017 Ag Safety Awareness Program Week US Ag Centers Social Media Kit

March 5-11, 2017
“Get Out of My Space”
#USAGCenters
#KeepFarmsSafe
#ASAP17

The U.S. Ag Centers are promoting Farm Bureau’s 2017 Ag Safety Awareness Program Week through social media. This social media kit, through a coordinated effort with American Farm Bureau Federation, has been developed to promote U.S. Ag Center YouTube videos and other safety resources that fit with the daily themes of Ag Safety Awareness Program Week:

Daily Themes

Monday- Confined Space

Tuesday - Animal Space

Wednesday - Equipment Operator Space

Thursday - Electrical Space

Friday- Driver Space

Event Promotion

- Update your website and Facebook cover photo with the Ag Safety Awareness Program Week graphic.
- During Ag Safety Awareness Program Week, post the social media messages found on the following pages, or create your own posts using the hashtags #KeepFarmsSafe, #ASAP17 and #USAgCenters. Other hashtags may also be appropriate.
- Get involved in the conversation. Follow, RT and share with Twitter and Facebook accounts that message about Ag Safety Awareness Program Week.

Hashtags

Always use red hashtags

#USAgCenters

#KeepFarmsSafe

#ASAP17

#getoutofmyspace

#confinedspace

#personalspace

#livestocksafety

#tractorsafety

#oneseatonerider

#noextrariders

#electricalsafety

#transportationsafety

#roadwaysafety

#sharetheroad

#SMV

Webinars

Friday, March 10 @ 12 CST

Title: “When machines meet the road: farm equipment crashes on public highways”

Presenters: Marizen Ramirez, MPH, PhD & Karissa Harland, MPH, PhD

<https://agsafetyawarenessweek.eventbrite.com>

Monday, March 13 @ 12 CST

Title: “Why we need to ‘Be Calm’ around animals-the importance of reminding our staff to think and slow down”

Presenter: Jeff Bender, DVM, MS, DACVPM

<https://agsafetyawarenessweek.eventbrite.com>

When a participant clicks the link, they will be asked to enter their first and last name. We suggest emailing all registrants either the day before or the morning of (or both) to remind them about the webinar.

System Check

To ensure the participants’ computers and networks are properly configured, provide the following link for them to test their systems.

http://ufifas.adobeconnect.com/common/help/en/support/meeting_test.htm

The direct link for the webinars is: <http://ufifas.adobeconnect.com/asap17/> . The link above is preferred because it registers attendees and provides us with basic contact information.

Social Media Tips

1. Post consistently. Determine what your posting schedule will be and stick to it. Schedule posts ahead of time, if needed. Three tools available for scheduling your social media posts are listed below.
 - a. HootSuite: <https://hootsuite.com/>
 - b. Klout: <https://klout.com/home>
 - c. FutureTweets: <http://futuretweets.com/>
2. Post images and/or videos with your messages.
3. It's OK to share content from other organizations. Some recommended ratios are below.
 - a. **4-1-1** – 4 pieces of content from others, 1 reshare, 1 self-serving post
 - b. **5-3-2** – 5 pieces of content from others, 3 from you, 2 personal updates
 - c. Golden Ratio – 60% others' content, 30% your content, 10% promotional
 - d. Rule of Thirds – 1/3 posts about you, 1/3 curated content, 1/3 conversations
4. Practice the “Three A’s”.
 - a. Appreciation
 - b. Advocacy
 - c. Appeals
5. Tell stories to humanize the daily topics. Use news articles or personal anecdotes to appeal to the audience's emotional side.
6. Ask questions in your posts. Start a conversation.
7. Leave your audience with cliff hangers at the end of the day. (i.e., “Stay tuned tomorrow to learn how to keep your kids safe on the farm.”)
8. Refer to the infographic on page 5 for peak times for posting.

Equipment Operator Space

Wednesday, 3/8/17

1. Most ag fatalities are caused by tractor overturns. This video shares the heartbreak of losing a loved one to a tractor rollover. <http://bit.ly/fataltractorrollover>
#KeepFarmsSafe #ROPS #ASAP17
#USAgCenters #personalspace
 2. Shield the PTO and protect your limbs and life. <http://bit.ly/othersafetyissues>
#KeepFarmsSafe #ASAP17
#USAgCenters #personalspace
 3. There is only enough space in the tractor seat for the operator. One seat, one rider. <http://bit.ly/kidsawayfromtractors>
#KeepFarmsSafe #ASAP17
#USAgCenters
 4. Flip the switch before you fix that glitch!!!
#KeepFarmsSafe #ASAP17
#USAgCenters
 5. Don't stick your moving parts into the machine's moving parts. Always cut the power before you work on a tractor or machine. <http://bit.ly/lockouttagout17>
#KeepFarmsSafe #ASAP17
#USAgCenters #personalspace
1. Most fatalities are caused by tractor overturns. Use a rollbar and a seatbelt. #KeepFarmsSafe #ROPS #ASAP17 #USAgCenters #personalspace
 2. Shield the PTO and protect your limbs and life. #KeepFarmsSafe #ASAP17 #USAgCenters #personalspace
 3. There is only enough space in the tractor seat for the operator. One seat, one rider. #KeepFarmsSafe #ASAP17 #USAgCenters #personalspace
 4. Flip the switch before you fix that glitch!!! #KeepFarmsSafe #ASAP17 #USAgCenters #personalspace
 5. Don't stick your moving parts into the machine's moving parts. #KeepFarmsSafe #ASAP17 #USAgCenters #personalspace

Quiz Link: <https://www.surveymonkey.com/r/ASAPequipspace>

Electrical Space

Thursday, 3/9/17

1. A downed wire can knock you down.
Never touch a downed wire!
#KeepFarmsSafe #ASAP17
#USAgCenters
 2. Water and wires don't mix. Don't stand in water while operating electric tools.
#KeepFarmsSafe #ASAP17
#USAgCenters
 3. Don't get burned by electricity!!!
#KeepFarmsSafe #ASAP17
#USAgCenters
 4. Stay 10ft away from overhead wires. Check the area before moving tall equipment. #KeepFarmsSafe #ASAP17
#USAgCenters
 5. We are all 'plugged-in' to our world. Make sure you are safe around electricity or it will be 'lights-out' for you.
<http://bit.ly/FarmElectricalSafety>
#KeepFarmsSafe #ASAP17
#USAgCenters
 6. Lockout-tagout is a cheap, effective way to stay safe while working on dangerous machines. Check out this video to see how to use lockout-tagout:
<http://bit.ly/lockouttagout17>.
#KeepFarmsSafe #lockouttagout
#ASAP17 #USAgCenters
1. A downed wire can knock you down.
#KeepFarmsSafe #ASAP17
#USAgCenters
 2. Water and wires don't mix.
#KeepFarmsSafe #ASAP17
#USAgCenters
 3. Don't get burned by electricity!!!
#KeepFarmsSafe #ASAP17
#USAgCenters
 4. You want to stay away from overhead wires by 10ft. #KeepFarmsSafe #ASAP17
#USAgCenters
 5. Make sure you are safe around electricity or it will be 'lights-out' for you.
#KeepFarmsSafe #ASAP17

Driver Space

Friday, 3/10/17

1. Get off my rear!! Follow farm vehicles at a safe distance. #KeepFarmsSafe #ASAP17 #USAgCenters
 2. My #SMV sign means slow down for me; 25mph is my max speed. <http://bit.ly/agroadsafety> #KeepFarmsSafe #ASAP17 #USAgCenters #personalspace
 3. Make sure all farm vehicles are equipped with SMV signs. It's the law! #KeepFarmsSafe #ASAP17 #USAgCenters <http://bit.ly/ruralroadsafety>
 4. Nearly half of all incidents between motorists and farm implements involve either a left hand turn or a rear-end collision. <http://bit.ly/agroadsafety> #KeepFarmsSafe #ASAP17 #USAgCenters
 5. Take your phone away from your face and respect my #personalspace. Don't text/talk and drive. #ASAP17 #USAgCenters
 6. Remember that if you slow down to 20 mph behind a tractor for 2 miles, you will lose less than 5 minutes. #KeepFarmsSafe #ASAP17 #USAgCenters
 7. You are stuck behind a tractor and running late for work. Moving the tractor onto the shoulder could cause a tractor overturn-killing the operator. Not only that, the operator is going to work, too. #KeepFarmsSafe #ASAP17 #USAgCenters
1. Get off my rear!! Follow farm vehicles at a safe distance. #KeepFarmsSafe #ASAP17 #USAgCenters #personalspace
 2. My #SMV sign means slow down for me; 25 mph is my max speed. #KeepFarmsSafe #ASAP17 #USAgCenters #personalspace
 3. Make sure all farm vehicles are equipped with SMV signs. It's the law! #KeepFarmsSafe #ASAP17 #USAgCenters <http://bit.ly/ruralroadsafety>
 4. You don't want to play bumper cars with my 690 Combine. #KeepFarmsSafe #ASAP17 #USAgCenters #personalspace
 5. Take your phone away from your face and respect my #personalspace. Don't text/talk and drive. #KeepFarmsSafe #ASAP17 #USAgCenters
 6. If you slow down to 20 mph behind a tractor for 2 miles, you will lose less than 5 minutes. #KeepFarmsSafe #ASAP17 #USAgCenters
 7. Share the road with tractors and farm equipment. They are on their way to work, too. #KeepFarmsSafe #ASAP17 #USAgCenters
