

IF **YOUTH** ARE THE FUTURE OF AGRICULTURE, THEN **SAFETY** IS ESSENTIAL.

A survey of **978** FFA students at the 2019 National FFA convention suggests a need for more **safety education**.

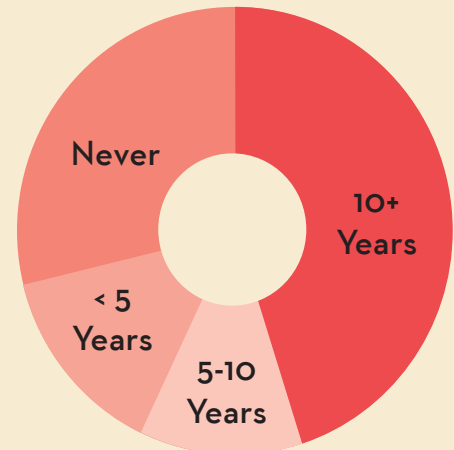

Learn more about the risks in the **2020 Childhood Agricultural Injury Factsheet**

Percentage of students who said the following **agricultural safety and health** topics were taught in any class during the past school year.

How many years students have **lived or worked** on a farm or ranch

Outside of school, students also said they learn about **agricultural safety** from:

37%
FFA

32%
FAMILY

19%
4-H

11%
EMPLOYER
