Basics of Recordkeeping and Financials for Farmers and Ranchers
Tuesday, February 28, 2017 – 1:00 PM – 2:00 PM CST

[Image of webinar details]

Presented by: Megan Roberts
In this session, you will learn about the basics of farm recordkeeping. Proper farm recordkeeping can save you both time and money. We will learn why it is important to keep records, discuss how to classify assets and liabilities, identify ways to record transactions, briefly review the four primary financial statements, and talk about electronic recordkeeping systems.

New Year, New Goals!
As we start the fresh new year, the webinar addresses strategies to develop more effective farm and personal goals.

Today we are loosely framing this discussion around farm transition, but the concepts are transferable to many situations.
Overview
• Reframing goals
• Using the SMART Goal format
• Why should you write your goals
• Long term, then short term

Poll: Do you typically set New Year's Goals? Resolutions?
The new year is a fresh start, but also it can feel overwhelming.

Do goals, resolutions, intentions, or whatever you call them, stress you out?
In our 2019 survey of women in ag, 90% reported agriculture as a stressor.

Many things in agriculture are outside our control. Are there things you can take control of? Set goals for?

SOME COMMON GOALS

• Reduce tax implications
• Protect assets from…
• Ensure farm continues in next generation
• Have retirement income
• Avoid family discord
• Be happy
Be happy…

Why might this be a tough goal?
IDENTIFYING GOALS...

- Goals are **statements** of:
  - Where…
    - You are and where you want to go.
  - How…
    - You intend to get there.
  - When…
    - You intend to arrive.
REASONS FOR WRITING GOALS

• Gives more authority to them
• Reminds us of them
• Clarifies them for everyone
• Provides a written record
• Increases the probability of achievement

MANAGEMENT AND GOALS...

• Management is a goal-directed activity
• Your goals provide direction for all your management efforts
LENGTH OF GOALS

• Long term – accomplish in 5-10 or more years
• Short term – accomplish within 0-2 years

• These are simply guidelines, sometimes you can move through some goals quicker than others

GOOD GOALS

• Highlight a point in time
  • In Two Months, Within Five Years
• Use action verbs
  • Reduce, Increase, Improve, Expand
• Identify a change in…
  • Pesticide Applied, Yield, Attitude
• Specifies how measured
  • Yield, Balance Sheet
SMART GOALS

- **Specific**
- **Measurable**
- **Attainable**
- **Relevant**
- **Time Based**

SOME COMMON GOALS

- Reduce tax implications
- Protect assets from...
- Ensure farm continues in next generation
- Have retirement income
- Be happy
COMMON RETIREMENT “GOAL”

Be happy…

SMART GOAL

During 2020, set aside $xxxx from asset sales to use for vacations during retirement. Take a one week long vacation as a couple each year beginning in winter 2021.
Think about long term goals, then identify the short term goals needed to reach them.

What are some of your goals?
Can you incorporate resiliency and wellbeing goals into the new year?

Overview
• Reframing goals
• Using the SMART Goal format
• Why should you write your goals
• Long term, then short term
One last thing, it’s okay to start with low hanging fruit. It’s okay to start small!

Thank you.
