This Year, UMASH is Bringing the Farm Show to You

UMASH ONLINE EXPO

A 20/20 LOOK AT AG HEALTH, SAFETY AND WELLNESS

Missing your summer farm show? The Upper Midwest Agricultural Safety and Health Center (UMASH) is bringing the show to you. The free **UMASH Online Expo: A 20/20 Look at Ag Health, Safety and Wellness** will occur from Monday, August 10 - Thursday, August 13.

The UMASH Online Expo is designed to keep the Upper Midwest agricultural community informed, connected, and safe.

On Monday, August 10, a live Twitter chat will bring that community feel straight to your home. From Tuesday, August 11 - Thursday, August 13, attendees can drop in and visit virtual exhibitor booths, watch live safety demos, and participate in talks on a range of farm safety and health issues. There are activities for the whole family, including Jeopardy for kids and a webinar on cultivating resiliency for women in agriculture.

“Agriculture is hazardous work,” says UMASH Director Jeff Bender. “It’s important to keep our farmers, farm workers and their families safe. That’s why we created this free online expo. We wanted to create a sense of community and some fun. Please join us.”

All are welcome to attend any part of this free multi-day event.

More information at: <http://umash.umn.edu/expo>.

We look forward to seeing you there!

###

UMASH is one of eleven Centers of Excellence in Agricultural Disease and Injury Research, Education, and Prevention funded by the National Institute for Occupational Safety and Health (NIOSH) throughout the United States to improve the health, safety and wellbeing of agricultural workers and their families.
