### New funding opportunity

Farmers and ranchers are often at the mercy of factors beyond their control— and that unpredictability can take a toll. CHS is undertaking a **special funding opportunity to support organizations helping farmers and ranchers** navigate the uncertainties and stresses of ag production in challenging weather and economic situations.

### Now accepting applications

Is your organization offering resources or support to help farmers or ranchers with the stresses of ag production in the current environment? Apply today!

**Deadline to apply is July 8, 2019.**

## Long Live Rural America.

As a farmer-owned cooperative, our roots run deep in small towns. That's why we believe in harnessing the cooperative spirit to strengthen our hometown communities. It's also why we're providing support to help address the challenges farmers and ranchers are facing in the current weather and economic environment.

Read on to learn how your organization can partner with CHS to help farmers and ranchers. We can do better when we work together.

### Grant details

Funding is available for national or regional programs providing resources to support farmers and ranchers navigating the stresses and uncertainties of the current environment.
