

2023 National Farm Safety and Health Week

US Ag Centers Promotional Toolkit

September 17-23, 2023

- **Monday (9/18):** Tractor & Rural Roadway Safety
- **Tuesday (9/19):** Health and Wellness
- **Wednesday (9/20):** Priority Populations
- **Thursday (9/21):** Confined Spaces in Agriculture
- **Friday (9/22):** Brain Health

The **U.S. Agricultural Centers** collaborate to promote 2023 National Farm Safety and Health Week, especially U.S. Ag Center safety resources that fit with the daily themes of this year's campaign. The overall goals are:

1. Create cohesive, clear, and understandable messaging promoting a wide range of farm safety and health topics.
2. Increase engagement on farm safety and health social media platforms.
3. Disseminate resources about farm safety and health.

This toolkit contains:

1. [Promotional guidance](#), including:
 - General communication tips
 - Directions for media engagement and posting on social media
2. [NFSHW logo, graphics, and imagery](#)
3. [Social media toolkit](#), with draft post text for teasers and each day of NFSHW
4. [Social media handles](#) for Ag Centers and additional partners
5. [A full list of relevant ag center resources](#), so you can generate your own tailored content across platforms and communications avenues

NFSHW 2023 Social Media Toolkit

#USAgCenters | #NFSHW23 | #NECASAG

National Farm Safety and Health Week: No one can take your place

Promotional Guidance

Amplify NFSHW and the resources aligned with daily themes by leveraging your Center's outreach strategy - through social media accounts, blogs, email newsletters, or other communications venues. Consider writing a **press release** and contacting **local, state, and national media outlets** to share information about NFSHW.

To find media outlets in your area:

[Print](#) | [Radio](#) | [Television](#)

While this toolkit provides draft social media text and graphics to make promoting NFSHW and Ag Center resources easy, you may also edit the draft messaging or create your own. For this reason, we have provided a [full list of relevant ag center resources](#) at the end of this toolkit so that you can generate content specific to your audiences and goals across platforms and communication avenues.

Full List of Ag Center Resources

Use the following full list of relevant ag center resources to generate your own tailored content specific to your audiences and goals, across platforms and communications avenues:

- [Monday 9/18](#): Tractor & Rural Roadway Safety
- [Tuesday 9/19](#): Health and Wellness
- [Wednesday 9/20](#): Priority Populations
- [Thursday 9/21](#): Confined Spaces in Agriculture
- [Friday 9/22](#): Brain Health

MONDAY, SEPTEMBER 18 - Tractor Safety & Rural Roadway Safety

[Agricultural-Related Crashes in the Southwest Agricultural Region](#) - SW AgCRASH -

https://crr1.tamu.edu/files/2021/02/SWAg_Farm_r.pdf

General tips for communications

- Follow the **Media Guidelines for Agricultural Safety**:

[Downloadable PDF \(English\)](#) | [Spanish](#) | [French](#)

- **When crafting messages:** Emphasize that farm incidents are more common than expected while also **preventable and predictable**. Use the message as a “teachable moment.” Focus on the full impact of injuries and death, not just the grief caused by the incident. Include safety resources. Follow all safety protocols, including those for youth.
- **When including visuals:** Ensure photos or graphics depict appropriate farm safety protocols, even in the image's background.

NFSHW 2023 Social Media Toolkit

#USAgCenters | #NFSHW23 | #NECASAG

National Farm Safety and Health Week: No one can take your place

Media engagement

- Remember that news moves fast - you will compete for limited space or airtime.
- Target **media outlets interested in rural/agricultural issues** - know who you will connect with at the media outlet. Get a name!
- Get a **content expert** to speak on agricultural health and safety or one of the daily themes.
- Prepare to **suggest several story ideas** that will garner broad interest. The more sensational the story, the more likely it is to be covered by media outlets. Focus on personal stories. Not all pitches will be successful, but do not let that discourage you.
- Consider **writing a letter to the editor** for a local newspaper or trade publication.
- Consider **reaching out to trade publications** for agricultural associations.
- When participating in interviews:
 - Keep your answers **short and to the point**.
 - **Prepare** your answers ahead of time.
 - **Provide instructions** on accessing resources, like the Ag Centers' YouTube channel.
 - **Mention the name** of the campaign, the organizers, and the Ag Centers.

Social media posting

- If using a resource from another organization, tag the organization in the post, if possible.
- Reshare other US Ag Center social posts and resources throughout the week.
- Posts with images tend to do best.
- Consider translating posts into languages common to your region, including Spanish.
- Use images that include a range of diverse identities.
- Make sure your social media posts are **accessible for individuals with disabilities**:
 - [Accessible Social Media](#)
 - [Creating Accessible Social Media Content](#)
- Tailor post text to specific platforms

NFSHW 2023 Social Media Toolkit

#USAgCenters | #NFSHW23 | #NECASAG

National Farm Safety and Health Week: No one can take your place

- **Tweets** tend to be short (≤280 characters) and do best when framed as part of a larger regional/national dialogue. They don't always include an image or link and often have 1-3 hashtags.
 - **Facebook** posts can be longer, should include only one general hashtag at most, and tend to do best with graphics that depict a story, such as infographics or pictures of individuals.
 - **Instagram** posts are centered around an image, do not include external links, and can have many hashtags.
 - **LinkedIn** posts are professional in nature, often sharing an organization's opportunities, events, or resources.
 - You may also wish to play around with Facebook and Instagram stories. Kudos to anyone who creates a TikTok video. :)
 - [Find more information on ideal social media post lengths for platforms here.](#)
- Use the hashtags #NFSHW23, #USAgCenters, #NECASAG, and #NoOneCanTakeYourPlace where appropriate throughout the campaign.
 - Consider using other hashtags relevant to the topic of the post and/or your audience(s), for example:
 - #FarmSafety
 - #CultivateSafety
 - #AgTeach
 - #TeachAg
 - #TractorSafety
 - #RoadwaySafety
 - #FarmerHealth
 - #WellnessOnTheFarm
 - #SafeFarmKids
 - #GenerationalSafety
 - #AgingOnTheFarm
 - #ConfinedSpaces
 - #GrainBin
 - #GrainSafety
 - #BreatheBetter
 - #RespiratorySafety
 - #HomeSafeHome
 - #FarmerMentalHealth

Monday (9/18)

Tractor Safety & Rural Roadway Safety

For every drive on the farm, remember to:

- Wear a seatbelt
- Use hearing protection
- Drive slowly

For more safety you can see, check out comics (available in English & Spanish) from the Northeast Center.

bit.ly/nfshw23-nyca-mh-tractor

#USAgCenters

#NFSHW23

Send this post to someone you care about.

You are irreplaceable. Your efforts to stay safe on the road can be your best protection against drivers that do not slow down or pay attention.

This #NFSHW23 be visible 24/7 on rural roads with reflective materials and slow-moving vehicle placards.

More guidance from the Southwest Center:

bit.ly/nfshw23-swag-ruralroads

#NoOneCanTakeYourPlace

Tragedy can happen in an instant, but maintaining proper lighting and marking can help you and your community stay safe on the road.

Refresh your knowledge with this 2-min video on the US Ag Center channel:

bit.ly/saferoads-video

#NFSHW23
#USAgCenters
#FarmSafety

Roadway crashes that involve farm equipment are 5 times more likely to end with a fatality.

This #NFSHW23, use this resource from the Great Plains Center to check that you have the proper signage, lights, and reflective safety strips to be visible and safe on the road.

bit.ly/nfshw23-gpcac-ruralroads

#USAgCenters
#RoadwaySafety

Whether you drive farm machinery or a standard vehicle, you can help make rural roads safer.

Slow down and be patient. Never pass farm equipment while in no-passing zones Use turn signals before passing

Check out CS-CASH's Safe Rural Roads fact sheet for more steps to keep everyone safe.

Wednesday (9/20) Priority Populations

Farms are wonderful places for children to live, work, and play.

We all have a role in keeping youth safe while they grow up with ag. Use the top 5 safety strategies from the Children's Center to protect kids on the farm:

bit.ly/nfshw23-cultivatesafety

#NFSHW23
#USAgCenters

Farm injuries happen most often when children are playing in an ag worksite or are bystanders to ag work.

Get up-to-date this #NFSHW23 on the best ways to protect toddlers and school-aged children on the farm with these guides from CS-CASH.

Want to spread the word? Share this with a family you care about!

bit.ly/nfshw23-cscash-kids

#USAgCenters

With age comes wisdom...and new health and safety challenges for some who continue to live and work on the farm.

Read about how UMASH partnered to launch innovative projects to make aging easier and safer on the farm.

#NFSHW23
#USAgCenters

bit.ly/nfshw23-umash-aging

Migrant women are absolutely critical to the agricultural workforce.

Migrant Clinicians Network works toward a world where migration is not a barrier to well-being. This #NFSHW23, explore their resources for migrant women's health:

bit.ly/nfshw23-mcn-women

#NoOneCanTakeYourPlace

Farmworkers come from many different cultural and language backgrounds. The National Farmworker Training Program uses culturally appropriate, innovative, and accessible approaches to share health information with farm workers.

This #NFSHW23, click for multilingual worker training materials on everything from heat stress to chemical safety:

Thursday (9/21)
Confined Spaces in Agriculture

Which respirator is right for you? Save this guide from AgriSafe to know what mask can protect you during each task, especially if you work around grain bins, livestock, manure pits, silos, or other oxygen-limited environments.

bit.ly/nfshw23-agrisafe-respirator

#NFSHW23

An N95 respirator filters out small particles in the air, like dust, animal bedding, and more.

! But be sure to choose a different respirator when working around confined spaces or gases. !

More info from HICAHS in English and Spanish:

bit.ly/nfshw23-hicahs-n95

#NFSHW23
#USAgCenters

Those working on the farm may be exposed to dangerous levels of hazardous gasses, like hydrogen sulfide (H2S) and ammonia (NH3).

The good news is that gas monitors can alert farmers when conditions are unsafe - preventing loss of consciousness, health problems, or even death.

GPCAH has a fact sheet in English and Spanish to find out what monitors can help you stay safe on your operation:

bit.ly/nfshw23-gpcah-gas

#NFSHW23
#USAgCenters

Over half of people who get trapped in a grain bin do not come out alive.

Be sure to wear the right equipment and work in pairs to prevent grain entrapment and engulfment. Learn more from the Southeast Center about the risks and precautions to stay safe.

Friday (9/22)

Brain Health

CW: suicide.

It's devastating that so many folks in ag have experienced loss due to suicide. Home Safe Home describes a story of support in a crisis and the importance of getting professional mental health care.

#NoOneCanTakeYourPlace

Please note that this video, produced by the Southwest Center, contains upsetting content about suicide, including graphic descriptions.

bit.ly/nfshw23-homesafehome

#NFSHW23
#USAgCenters

Our bodies are always changing, and so does the way we work.

Simple adaptations on the farm or ranch can make life easier for folks with Parkinson's disease (a progressive disorder that affects movement). Find out more from UMASH:

bit.ly/nfshw23-umash-parkinsons

#NFSHW23
#USAgCenters

Dementia is a brain disease that may cause memory problems, mood changes and other symptoms that can make life on the farm more dangerous.

Dr. Kanika Arora, from the Great Plains Center shares tips about how those with dementia and their families can stay safe on the farm.

#NFSHW23
#USAgCenters

bit.ly/nfshw23-gpcah-dementia

During an avian influenza outbreak, farmers must rapidly respond. Crises like these can cause stress and depression among workers and operators.

This CS-CASH resource can help farmers recognize these mental health symptoms and when to seek help.

bit.ly/nfshw23-cscash-mentalhealthAI

#NFSHW23
#USAgCenters

Teens may have trouble opening up to adults about their mental health, even when they are struggling.

The Invest in Your Health: Cultivating a Healthy Mind training module from AgriSafe teaches adults how to open lines of communication about mental health with teens.

bit.ly/nfshw23-agri-safe-teenmentalhealth

#NFSHW23

On land or sea, emergencies on the job can impact mental health.

How to cope? Be honest about your feelings, seek support, and share your experience with others who can relate.

PNASH has more info, especially for those in commercial fishing:
